Hotel booking & revenue analysis

All 141,947 booking records · July 2018–August 2020 · Revenue is an estimate from non-canceled bookings, not audited earned revenue.

Highest hotel revenue

City Hotel

16.32M source currency units

Busiest calendar month

August

17,772 bookings across hotel types

Largest booking origin

Portugal

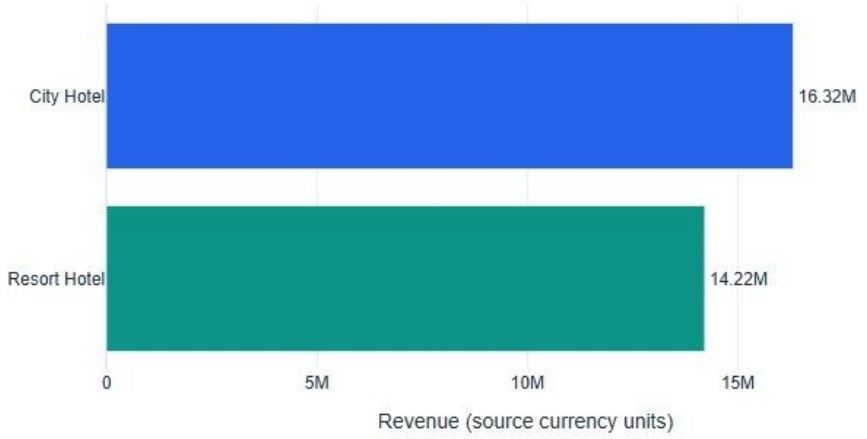

62,384 bookings · 43.9% of all records

Highest revenue segment

Online TA

15.42M source currency units

1 · Total room revenue by hotel type

City Hotel leads Resort Hotel by 2,102,552.36 currency units.

2 · Monthly bookings by hotel type

August is highest for both: City Hotel 11,464; Resort Hotel 6,308. Pooled month totals have unequal year coverage.

3 · Cancellation rate within each hotel type

Denominator: all bookings within each hotel type. Canceled includes any record with is_canceled = 1.

4 · Bookings by guest country

Country reflects the booking's recorded guest country, not the hotel location. Portugal (PRT) leads. 625 missing-country records are excluded from the map. Linear color scale.

5 · Total room revenue by market segment

Online TA contributes 50.5% of estimated non-canceled room revenue.
